

Ladies and Gentlemen: I am writing today regarding K-LOVE radio. K-LOVE serves my local community of Ada Oklahoma in a tremendous way. It is a positive encouraging station with contemporary, positive messages our teenagers love to listen to ! There is not another radio station that provides the same type of positive messages to our teenagers that K-LOVE does. To take them off the air would be a huge disservice to local, rural areas of the United States that do not have access to other metropolitan programming.

If you take K-LOVE off the air, it won't be replaced....it can't be replaced as there is not another station like it. It is unique. Teenagers, children and adults need this alternative station on the air. There are plenty of rock and today's culture stations that present music with vulgar lyrics that teenagers and children cannot listen to. Other talk radio uses foul language and discusses topics that are not appropriate for teenagers and minor children.

K-LOVE serves our local schools in an important way. Our teachers allow our kids to listen to K-LOVE in the classroom, on school trips, etc because it is positive, encouraging and promotes being responsible and a Christian student. The station is a critical part of our community that cannot be replaced by another radio station. It is supported by listeners and accepts no advertisements so that just proves our point.....the people of the United States want this station enough to pay for it themselves. Please do not allow a law to take away something that is positive, encouraging and so needed in today's society for our teenagers and children. thank you for your careful decision in this critical matter. Leslie Fisher
